ARTICLE CODE	DESCRIPTION
MEL-5007	Isothermal container set AF12 digital + Koala 90 Xtra - 180l - 865x505x1480mm

BRAND

Melform

PRODUCT DESCRIPTION

This combined insulated container set is suitable for transporting products at different temperatures simultaneously
The modular design allows containers to be securely connected and configured to suit specific transport requirements
Compatible with eutectic plates and active heating doors to maintain the required temperature for longer
Individually insulated compartments prevent heat transfer between separate product loads
Easy to assemble and disassemble for fast cleaning and efficient day-to-day operation
The integrated label holder ensures clear identification of contents, route or destination
Designed for professional use in contract catering, healthcare facilities, meal delivery and foodservice logistics Smooth surfaces allow easy, thorough cleaning and disinfection
Excellent thermal insulation helps preserve food quality during transport and distribution
The AF12 active door temperature can be set from +30°C to +85°C
The temperature of the Koala 90 Xtra can be set from -25°C to +40°C
